

## OKPOL Skylight Window Codes

Skylight Blinds are sold by window code and not by size. If you cannot locate the manufacturers plate in your window, and are 100% sure that it is an OKPOL Window, then you can use the table below to find out which window code you have.

Simply measure the visible glass of your window to the nearest millimetre and match it up in the table below. (It must be a very accurate measurement)

OKPOL Window Codes and Visible Glass Sizes		
Window Code	Glass Width	Glass Drop
1 (55/78)	376mm	600mm
